Reasons For Allowance

Claims 1 – 36, 49 – 56, 58, 59, 61 are allowable.

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims the prior arts made of record fail to suggest a method for increasing the channel data rate throughout in an optical fiber communication system while minimizing a bit error rate modifying a first output symbol according to a signal property of a preceding output symbol and a signal property of a succeeding output symbol. Also, in combination with other limitations of the claims the prior arts made of record fail to suggest a method for increasing the channel data rate throughout in an optical communication system in which a drive voltage controls an optical source and a series resistor is used to convert a nonlinear shunt current into a nonlinear voltage drop to reduce the drive voltage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
